# Hair removal **MADE TO LAST**

Did you know the average woman will spend 72 days of her life shaving her legs?¹ Traditional hair removal methods such as shaving, waxing and tweezing can be time consuming and expensive.

Elite iQ treatments can permanently reduce hair on all areas of the body², allowing you to prioritize the important things in life. **Think of what you could do with an extra 72 days!**

# Frequently asked **QUESTIONS**

## Is this treatment right for me?

The Elite iQ device can be safely used on all skin types and anywhere on the body including face, back, chest, arms, underarms, bikini area and legs.

## When will I see results?

You can expect to see a gradual decrease in the amount and thickness of the hair in the treated area.\* Since this treatment only targets hair in the active phase of growth, multiple treatments are often needed for complete removal.

**79%** AVERAGE REDUCTION  
IN HAIR WITH JUST  
THREE TREATMENTS\*²

## Why Elite iQ instead of other hair removal options?

Since the Elite iQ device is equipped with the Skintel melanin reader technology, which reads your specific skin type and adjusts treatment settings accordingly, you will benefit from a customized treatment perfectly matched to your skin!

## How many treatments will I need?

The amount of treatments and treatment times will vary, depending on the size of the area being treated. Each treatment typically takes less than 30 minutes. Speak to your provider for a consultation to discuss treatment areas and number of treatments required.
